Objective

The media plays a crucial role in modern society. This course will give students a basic introduction to and understanding of how the media works and how it influences society at large. The course has a broad scope. Based on theories of communication, with an emphasis on mass communication, the course discusses the historical development of the media, the media structure in Norway and internationally, media content, media effects and media channels like TV, radio, newspapers, film, the internet. There is an emphasis on the interaction between the media and the business community in order to contribute to an understanding of how managers may use the media to pursue business objectives. Emphasis is also put on how new media change the communicative reality for individuals, companies and society at large. A three-hour course in the use of the Internet is integrated in the course. A first introduction to writing term papers is also given.
