Bachelor Program in Project Management consists of three courses, where each course builds on the previous one. It is taken as a prerequisite that the students follow the progression through the program (Project Management 1 before Project Management 2, and Project Management 1 and 2 before Project Management 3). After completion of all three courses the program will be accepted as a 30 credits Bachelor Program or as an optional specialization as part of the Bachelor Program.

In addition to the regional colleges, Center of Distance Education will offer this program with its own specific teaching.

The courses of the program

BIK 6500 Project Management 1 (PL 1): 6 credits

BIK 6501 Project Management 2 (PL 2): 9 credits

BIK 6510 Project Management 3 (PL 3): 15 credits

Objective

The course builds on BIK 6500 Project Management 1. The compulsory literature from that course is still of relevance. In this course BIK 6501 Project Management 2 the emphasis will be on organizing, planning, analysis, reporting, communication and quality in project work.

Different kinds of projects are studied to broaden the understanding of project work. Stakeholder analysis and activity planning are brought in as part of the planning process. When studying project organization, focus is put on the project manager and human co-operation throughout the different phases of the project. Quality assurance will be discussed, and the importance of creating a specific project culture within the company.

Prerequisites

There are no specific prerequisites needed to be accepted to the program. It is considered a prerequisite that the students follow the progression through the program.
