English

Introduction

Learning outcome

The course will give an introduction to project management. The students will be given an understanding of what a project is and a foundation for planning, organizing and controlling projects. The course will further give an understanding of the problems of project work and will by the help of theory and practical examples show how to manage a project to achieve the goals.

Prerequisites

Organizational theory

Compulsory reading

Books:

Jessen, Svein Arne. 2002. Business by Projects. 1. edition. Universitetsforlaget

Other:

During the course there may be hand-outs and other material on additional topics relevant for the course and the examination.

Recommended reading

Computer-based tools

Computer-based tools are not used in this course.

Learning process and workload

The course consists of 36 hours of lectures and discussions on cases.

Please note that while attendance is not compulsory in all courses, it is the student's own responsibility to obtain any information provided in class that is not included on the course homepage/Blackboard or text book.

Examination

Your course grade will be based on the following activities and weights:

40% - Class work (in the form of a mix of some/ all of the following: home works; presentations of research articles and book chapters; class participation; and quizzes)

60% - Term paper written by up to 3 students

Specific information regarding student evaluation beyond the information given in the course description will be provided in class. This information may be relevant for requirements for term papers or other hand-ins, and/or where class participation can be one of several elements of the overall evaluation.

Exam code(s)

GRA 24161 accounts for 100 % of the final grade in the course GRA 2416.

Examination support materials

Exam aids at written examinations are explained under exam information in our web-based Student handbook. Please note use of calculator and dictionary.

<http://www.bi.edu/studenthandbook/examaids>

Re-sit examination

Re-takes are only possible at the next time a course will be held. When the course evaluation has a separate exam code for each part of the evaluation it is possible to retake parts of the evaluation. Otherwise, the whole course must be re-evaluated when a student wants to retake an exam. Retake examinations entail an extra examination fee.

Additional information

Honor Code

Academic honesty and trust are important to all of us as individuals, and represent values that are encouraged and promoted by the honor code system. This is a most significant university tradition. Students are responsible for familiarizing themselves with the ideals of the honor code system, to which the faculty are also deeply committed.

Any violation of the honor code will be dealt with in accordance with BI's procedures for cheating. These issues are a serious matter to everyone associated with the programs at BI and are at the heart of the honor code and academic integrity. If you have any questions about your responsibilities under the honor code, please ask.
