

APPLIES TO ACADEMIC YEAR 2009/2010

MET 2610 Mathematics - MAKEUP EXAM

Programme

Bachelor in Auditing (1. year), Bachelor in Business Journalism (1. year), Bachelor in Business Law (1. year), Bachelor in Entrepreneurship (1. year), Bachelor in Finance (1. year), Bachelor in IT-management (1. year), Bachelor in Real Estate (1. year), Foundation Program in Business Administration, Bachelor in Business Administration (1. year)

Responsible for the course

Department

Department of Economics

Term

According to study plan

ECTS Credits

6

Language of instruction

Norwegian

Introduction

Objective

The purpose of the course is to provide the students with mathematical knowledge and insight that will enable them to better understand and work on subjects related to business management.

Prerequisites

The course is based on mathematical knowledge corresponding to the basic course in mathematics of the Upper Secondary School

Compulsory reading

Books:

Bjørnstad, Harald ... [et al.]. 2007. Matematikk for økonomi og samfunnsfag. 7. utg. Kristiansand : Høyskoleforlaget

Recommended reading

Course outline

- Basic algebra
- The concept of function, Functions with one variable
- Derivation with applications, Elasticities
- Exponential functions and logarithmic functions
- Series and financial mathematics
- Integration
- Functions of multiple variables
- Optimizing techniques
- Constrained optimization, Lagrange multipliers

Computer-based tools

Computer-based tools are not used

Course structure

The duration of the course is one year. The course is based on 84 teaching hours of lectures, 42 hours in each semester, which deal with important parts of the syllabus. Two compulsory assignments, one each semester, must be completed during the course. The students have 14 days to work with each of the assignments. Both assignments must be passed in order to obtain final grade in the course. In addition to studying the textbooks, it is essential that students do exercises related to the syllabus. Students are also recommended to form study groups of 3 - 5 persons for the purpose of mutual help and support.

Examination

The evaluation consists of four components: Two individual assignments that must be passed, a three-hour multiple choice exam after the first semester and a four-hour individual written examination concludes the course. The two individual assignments will be graded passed/failed. The multiple choice exam and the final written exam will be given ordinary grades. The multiple choice exam is weighted 20% and the final exam 80% in the final grade. The students can redo each component separately.

Exam code(s)

MET 26101 - Assignment 1, graded passed/failed.

MET 26102 - Multiple Choice exam, counts 20% to obtain final grade in MET 2610 Mathematics, 6 credits.

MET 26103 - Assignment 2, graded passed/failed.

MET 26104 - Written exam, counts 80% to obtain final grade in MET 2610 Mathematics, 6 credits.

Examination support materials

No aids are allowed at the multiple choice exam.

All aids + calculator TEXAS INSTRUMENTS BA II Plus™ are allowed at the final written exam.

Exam aids at written examinations are explained under exam information in our web-based Student handbook. Please note use of calculator and dictionary.
