Introduction

The speciality program on Security Management consists of three independent courses, although building upon each other in sequence (SL1 prior to SL2 and SL2 prior to SL3).

When the exams are passed in all three courses, the program is approved to give 30 study points in the degree Bachelor of Management study.

The following courses are included in the program:

- BIK 2921 Security Management 1 (SL 1): 7,5 study points
- BIK 2922 Security Management 2 (SL 2): 7,5 study points
- BIK 2303 Security Management 3 (SL 3): 15 study points

Learning outcome

Security Management 1 gives an introduction to the basic security management topics and its reference to the governmental regulations and legal systems.

The candidates will during the course achieve an understanding of the various security threats towards the society at large, as well as its impact on industries and public organizations.

Focus is on how to perform security management within your own organization.

Prerequisites

No university pre-qualifications are required for enrolment in SL 1, however a condition for participation is enrolment in all three courses in Security Management.
