English

Introduction

Economic analysis is based on mathematical concepts and tools like functions and optimization. This intensive course is designed to enhance the mathematical knowledge of course participants in areas which are particularly relevant for the study of economics and administrative science.

The course is designed for students in the following programmes:

MSc in Political Economy
MSc in Strategic Marketing Management
MSc in International Management
MSc in Leadership and Organizational Psychology
MSc in Innovation and Entrepreneurship

Learning outcome

To provide the basic mathematical tools for economic analysis to students who need to refresh their mathematical skills.

Prerequisites

Admission to one of the two year master programmes at BI Norwegian Business School

Compulsory reading

Books:

Sydsæter, Knut and Peter Hammond. 2008. Essential mathematics for economic analysis. 3rd ed. Prentice Hall. Selected chapters

Recommended reading

Course outline

The course will highlight the following topics:

- Introductory topics
- Functions of one variable
- Differentiation
- Integration
- Functions of several variables
- Linear algebra
- Optimization and constrained optimization

Computer-based tools

It's Learning. Mathematical software may be used during lectures for illustration purposes.

Learning process and workload

There will be 21 teaching hours in the course.

Examination

Not applicable

Examination code(s)

Not applicable

Additional information**Honour Code**

Academic honesty and trust are important to all of us as individuals, and represent values that are encouraged and promoted by the honor code system. This is a most significant university tradition. Students are responsible for familiarizing themselves with the ideals of the honor code system, to which the faculty are also deeply committed.

Any violation of the honor code will be dealt with in accordance with BI's procedures for cheating. These issues are a serious matter to everyone associated with the programs at BI and are at the heart of the honor code and academic integrity. If you have any questions about your responsibilities under the honor code, please ask.
