

APPLIES TO ACADEMIC YEAR 2012/2013

## **BØK 2842 Shipping Management 2 - RE-SIT EXAMINATION**

### **Programme**

Re-sit examination

### **Responsible for the course**

Cathrine Bjune

### **Department**

Department of Accounting - Auditing and Law

### **Term**

According to study plan

### **ECTS Credits**

6

### **Language of instruction**

English

### **Introduction**

This course (in combination with BØK 2841) offers a thorough introduction to the development, practice and economics of international shipping. It aims at students who wish to specialise in the management of shipping companies, work in shipbroking or with consultants, finance and insurance organizations that include shipping in their portfolios. The courses also facilitate entry into management positions in those sectors of international commerce, industry and civil service that are prime users of maritime services. The courses are designed as electives to be chosen in combination with specializations such as finance, logistics, project management, enterprise development and so on.

### **Objective**

The course will provide an understanding of commercial practices and the legislative and contractual framework of international shipping. Students will be able to:

- understand the basics of the sale and purchase of a ship
- understand the structure of shipowning entities as well as ship registration
- understand commercial shipping contracts
- understand special issues in shipping accounting
- understand voyage calculations and laytime statements;
- understand shipping finance
- relate to central issues of maritime law and insurance

### **Prerequisites**

None

### **Compulsory reading**

#### **Books:**

Stopford, Martin. 2009. Maritime economics. 3rd ed. London : Routledge
