

APPLIES TO ACADEMIC YEAR 2012/2013

FAK 2623 General Insurance - Corporate

Programme

Course in Insurance

Responsible for the course

Ørnulf Daler

Department

Department of Accounting - Auditing and Law

Term

According to study plan

ECTS Credits

7,5

Language of instruction

Norwegian

Introduction

After having completed the course, the students shall have the skills to sell and give advises about fire and combined Insurance, liability insurance, motor insurance and cargo insurance for smaller and medium sized enterprises.

Learning outcome

Acquired knowledge

The students shall obtain knowledge about how to explain the liability for damages and the liability insurance conditions, to know the insurance conditions and pricing of property insurance and to know cargo insurance conditions and terms of delivery.

Acquired skills

The students shall have developed the skills to give advises to the customers and to deal with contracts concerning liability insurance, property insurance, motor insurance and cargo insurance to smaller and medium sized enterprises

Reflection

During the course, the students should have acquired a conscious attitude to the fact that their professional choices and advices first and foremost are of importance for other people than themselves.

Prerequisites

The student needs basic knowledge of the Norwegian Insurance Industry. The courses Introduction to Insurance, Introduction to Law part 1, Household Insurance and Motor Insurance should be completed. Experience from work in the Insurance Industry is an important source of understanding, as well.
