### **Annet:**

A set of readings will be provided on IL. This includes selected chapters of textbooks and separate articles. The readings will change every single course in order to continuously accommodate changes in the present-day business environments. Readings follow the morning/afternoon split, and are closely tied to the theme of the session. The reading load per session is indicated in the Course Calendar. The mandatory readings provide the so-called "bare bones" of the content substance of the session theme; these are the MUST-READS. The optional readings provide further insights and deepen the topics. These articles will increase the quality of the learning and get you the full value out of the course. All readings are available as PDF-files only. NO HARD COPIES OF BOOKS NEED TO BE PURCHASED!
