Re-sit examination

Responsible for the course

Emanuel Blattner, Sverre Knutsen, Anders Tveit

Department

Department of Economics

Term

According to study plan

ECTS Credits

12

Language of instruction

Norwegian

Introduction

Objective

The course aims to offer perspectives on the development and function of the financial system and knowledge of societal conditions and contexts that are vital for personnel in the financial service industry. This objective will be fulfilled with the students' completion of the two course sections "Applied macroeconomics" and "Financial change".

Prerequisites

The course is based on knowledge acquired in the Foundation Program in Business Administration or equivalent.

Compulsory reading

Books:

Ecklund, Gunhild J. og Sverre Knutsen. 2000. Vern mot kriser? : norsk finanstilsyn gjennom 100 år. Fagbokforlaget

Mishkin, Frederic S. 2010. The economics of money, banking and financial markets. 9th ed. Boston : Prentice Hall

Recommended reading

Other:

Blattner, Emanuel og Anders Anders. Siste versjon. Kompedium - Deltakermanual TOPSIM Macroeconomics. Oslo: Handelshøyskolen BI

Course outline

See under "Tilleggsinformasjon"

Computer-based tools

A macroeconomic simulation model is used in section 1.

Course structure

The course is based on 72+12 teaching hours organized in two sections:

1. Section 1: Applied macroeconomics, 6 credits
2. Section 2: Financial change, 6 credits

The course includes a macroeconomic simulation model in which the students "take over" leading positions in private and public sector.

Data material from the simulation is then used to study macroeconomic terms and relationships listed in the course outline. Actuality when it comes to Norwegian and international conditions, will also be focused.

In the course there will be used electronic portfolio as part of work during the course and at the end as part of examination. Each student must establish an electronic portfolio placed at Internet.

The exact dates for publishing will be announced at the start of the program. Then approximately one month before hand in of final individual project assignment, students are informed about which part of the working portfolio to be handed in for examination. A part of the final project assignment will also be a reflection paper. More information of this paper will be given together with information of project assignment.

Section 1: Applied macroeconomics

Objectives of the course are to understand the behaviour of interest rates in financial markets. An important issue will be the connection between the goods –, financial markets and interest rates. Central banking and the conduct of monetary policy and the impact of companies, financial institutions and the government on the economy will also be discussed.

Compulsory literature

Mishkin, Frederic S. Last edition. The economics of money, banking and financial markets. 8th ed. Pearson education.

Topics

- Understanding interest rates
- The behaviour of interest rates
- Money and the money multiplier
- Monetary policy - Goals and targets
- International finance and monetary policy

Section 2: Financial change

The objective of section 2 of the course is to understand the economics of financial institutions and - markets and their function in the economy in a historical perspective.

Compulsory literature

Mishkin, Frederic S. Last edition. The economics of money, banking and financial markets. 8th ed. Pearson education .

Ecklund, G. og S. Knutsen. 2000. Vern mot kriser? Norsk finanstilsyn gjennom 100 år. Bergen: Fagbokforlaget.
