Bachelor in Banking and Finance (SF)

Responsible for the course

Sverre Knutsen

Department

Department of Innovation and Economic Organisation

Term

According to study plan

ECTS Credits

9

Language of instruction

Norwegian

Introduction

Objective

The objective of the course is to provide the student with knowledge about national and international financial sector changes over time. The course aims at giving the student increased competence to analyse the major forces of change in the financial sector by the way of combining economic theory and historical knowledge. It is also an object to provide the background for and causes to financial crises. The knowledge acquired through the course will give the student increased competence to understand management as well as strategic choices of financial institutions, and even increase the students competence to advise clients.
