Responsible for the course

Ørnulf Daler

Department

Department of Accounting - Auditing and Law

Term

According to study plan

ECTS Credits

7.5

Language of instruction

Norwegian

Introduction

The course is primarily aimed at employees in the insurance industry with law as a part of their work. The course is obligatory to the Insurance exam.

Learning outcome

Acquired knowledge

The students shall get a thorough introduction to insurance law and law of damages.

Acquired skills

The students shall be able to use law of damages and insurance law for practical tasks, concerning advising as well as claims handling and settlements.

Reflection

During the course, the students should have acquired a conscious attitude to the fact that their professional choices and advices first and foremost are of importance for other people than themselves.

Prerequisites

The student needs basic knowledge of the Norwegian Insurance Industry and central statutory provisions concerning the Industry.
