Computer-based tools

Excel based projects - Use of DataStream database, It's learning/homepage

Learning process and workload

of 6 ECTS credits corresponds to a workload of 160-180 hours.

A course

Lectures

and Case discussions. Most learning will take place through student discussion of cases in portfolio management.

Students

will be responsible to prepare in groups a case or computer assignment for discussion prior to each class meetings. Each student must be prepared to present the case and to discuss her/his conclusions in the class room

Please

note that it is the student's own responsibility to obtain any information provided in class that is not included on the course homepage/It's learning or text book.

Examination

Your course grade (pass/fail) will be based on the following activities:

Class participation

Written exam - three hours (3 hrs)

All parts of the evaluation need to be completed and passed during the same semester in order to get a grade in the course.

Examination code(s)

GRA 65291 continuous assessment accounts for 100 % of the final grade in the course GRA 6529.

Examination support materials

A bilingual dictionary and BI-approved exam calculator.

Exam support materials at written examinations are explained under exam information in the student portal @bi.

Please note use of calculator and dictionary in the section on exam support materials.

Re-sit examination

Please see the course description for "GRA 6528 Portfolio Management - re-sit examination" for further information.

Additional information

Honor Code

Academic honesty and trust are important to all of us as individuals, and represent values that are encouraged and promoted by the honor code system. This is a most significant university tradition. Students are responsible for familiarizing themselves with the ideals of the honor code system, to which the faculty are also deeply committed.

Any violation of the honor code will be dealt with in accordance with BI's procedures for cheating. These issues are a serious matter to everyone associated with the programs at BI and are at the heart of the honor code and academic integrity. If you have any questions about your responsibilities under the honor code, please ask.
