Bachelor of Real Estate (2. year)

Responsible for the course

Thorunn Falkanger

Department

Department of Accounting - Auditing and Law

Term

According to study plan

ECTS Credits

7,5

Language of instruction

Norwegian

Introduction

will acquire knowledge about the legal regulation of the real estate business.

The students

Learning outcome

knowledge

course Real Estate Law I is to give students an understanding of the legal rules that determine the regulatory framework for real estate agents. They will gain knowledge about contract law and the rules of law regulating the legal relations between the seller and buyer of real estate when the contract is entered into through a real estate agent.

Acquired

The aim of the

shall have an adequate understanding of the topics that are covered by the discipline. The terms knowledge, in-depth insight and understanding indicate which specialist level is required. The most extensive knowledge is required when the term understanding is used.

The students

Acquired skills

The aim of the

course Real Estate Law I is that the students within the regulatory framework for practicing the real estate profession shall be able to handle tasks in a real estate agency associated with contract signing between the seller and buyer of real estate, property leases, as well as an understanding of statutory requirements for marketing of real estate agencies and real estate.

Reflection

In order to be

able to practice their tasks in a manner that safeguards the interests involved in a property transaction, a real estate agent must have an appropriate ethical reflection and attitude as well as professional knowledge within the legal topics discussed in the course.

Prerequisites

JUR 3430 Business Law or JUR 3420 Marketing Law.

Computer-based tools

Computer-based tools are not required in this course.

Learning process and workload

consists of 45 lecture hours covering the various topics in the syllabus. The lecture plan gives a detailed description of the topics covered.

teaching programme the students could be divided into small discussion groups and will work on assignments associated with each topic. The assignments will be discussed and reviewed in class after the discussion group work. The lecture form of teaching requires that the students before each lecture have studied the syllabus and the rules of law for the topic in question. The students are required to bring the code of laws and other study aids to the lectures and become familiar with them while studying the various topics. Parts of the syllabus must be studied through self-tuition.

have the opportunity to submit a written work for correction and feedback.
