### Computer-based tools

No particular computer-based tools are used in the course.

### Learning process and workload

As part of the teaching programme the students could be divided into small discussion groups and will work on assignments associated with each topic. The assignments will be discussed and reviewed in class after the discussion group work. The lecture form of teaching requires that the students before each lecture have studied the syllabus and the rules of law for the topic in question. The students are required to bring the code of laws and other study aids to the lectures and become familiar with them while studying the various topics. Parts of the syllabus must be studied through self-tuition.

Students will have the opportunity to submit a written work for correction and feedback.
