It's Learning.

Course structure

48 hours of teaching in the autumn (SPÅ 0061) and 52 in springtime (SPÅ 0062). In order to manage the requirements of the course it is essential that students attend the weekly sessions and participate actively in discussions. This requires active homework.

The first part of the course will be an intensive introduction to the main structures of the French language. The second part will reinforce oral activity, partly based on economic texts.

Examination

Students may have a course certificate based on formative evaluation during the year. The certificate gives access to the regular French courses at the NSM (BI)
