

APPLIES TO ACADEMIC YEAR 2015/2016

FAK 2625 Motor Insurance

Programme

Bachelor of Management, Banking and Insurance, Single courses

Responsible for the course

Inge Unneberg

Department

Department of Accounting - Auditing and Law

Term

According to study plan

ECTS Credits

7,5

Language of instruction

Norwegian

Introduction

The course will give a broad introduction to the topic motor vehicle insurance. Mandatory in authorization of claims handlers dealing with motor vehicle damages and insurance advisors regarding private property insurance.

Learning outcome

Acquired knowledge

The students shall obtain essential knowledge of insurance terms and rules and regulations concerning motor insurance.

Acquired skills

This course will give students ability to give advice in most topics related to insurance terms and insurance law concerning motor insurance. The students will also know how to use this knowledge in claims handling.

Reflection

During the course, the students should have acquired a conscious attitude to the fact that their professional choices and advises first and foremost are of importance for other people than themselves.

Prerequisites

The student needs basic knowledge of the Norwegian Insurance Industry. The courses Introduction to Insurance or similar should be completed. Experience from work in the Insurance Industry is an important source of understanding as well.
