English

Introduction

This course explores ethical challenges in business, and presents conceptual tools to handle dilemmas and polarities in the workplace.

Learning outcome

Acquired knowledge:

The student will become familiar with the basic concepts of business ethics, and their links to core business objectives and strategies. They will learn about the triple-bottom line of business, the responsibility towards owners, society and the environment. Communication culture is a key element in working with ethics in a business community, and the students will gain knowledge about ways to enhance dialogue about ethics in the workplace. They will also learn about the current debate concerning Homo Economicus and alternative conceptions of human nature and moral psychology.

Acquired skills:

Dilemma training will be a core activity in the course. The purpose of the training will be to prepare the students for the dilemmas they will encounter in future employment situations. They will learn to provide justification for their choices, and to analyze disagreement about moral issues. Through familiarity with ethical theories, concepts and principles, they will become better equipped to navigate in business environments where dilemmas are commonplace.

Acquired competence:

The students will be able to view their own professional education and practice in the light of possible effects on society and the environment. They will gain insight into the requirements necessary to establish sustainable business, and recognize ethics as an integral part of any high level professional competence. The course will encourage them to acknowledge that the triple-bottom line of business has personal ramifications, shaping the individual's responsibilities at work.

Prerequisites

All courses in the Masters programme will assume that students have fulfilled the admission requirements for the programme. In addition, courses in second, third and/or fourth semester can have specific prerequisites and will assume that students have followed normal study progression. For double degree and exchange students, please note that equivalent courses are accepted.

Compulsory reading

Books:

Crane, Andrew, Dirk Matten. 2010. Business ethics : managing corporate citizenship and sustainability in the age of globalization. 4rd ed. Oxford University Press

Collection of articles:

A compendium of scientific articles will be made available before the course starts.

Other:

During the course there may be hand-outs and other material on additional topics relevant for the course and the examination

Learning process and workload

A course of 6 ECTS credits corresponds to a workload of 160-180 hours.

The course will consist of four 3-hour plenary sessions, four 3-hour group sessions and two 6-hour dilemma workshops. The plenary and group sessions will present the main concepts and ideas, and provide the students with cases to discuss. In the group sessions the students will be divided into 4 groups, while in the dilemma workshops they will be divided into 8 groups. Each student can participate in 12 hours of plenary teaching, 12 hours of group teaching and 12 hours of dilemma workshop activities.

Please note that while attendance is not compulsory in all courses, it is the student's own responsibility to obtain any information provided in class that is not included on the course homepage/It's learning or text book.

Coursework requirements

Examination

A 48-hour take-home examination concludes the course. The examination will require the students to analyze a case through the use of theories, concepts and principles from the curriculum.

Form of assessment	Weight	Group size
Take home examination	100%	Individual

Specific information regarding student assessment will be provided in class. This information may be relevant to requirements for term papers or other hand-ins, and/or where class participation can be one of several components of the overall assessment.

Examination code(s)

GRA 60382 take-home examination accounts for 100% of the final grade in GRA 6038.

Examination support materials

Not applicable

Permitted examination support materials for written examinations are detailed under examination information in the student portal @bi. The section on support materials and the use of calculators and dictionaries should be paid special attention to.

Re-sit examination

It is only possible to retake an examination when the course is next taught. The assessment in some courses is based on more than one exam code. Where this is the case, you may retake only the assessed components of one of these exam codes. All retaken examinations will incur an additional fee. Please note that you need to retake the latest version of the course with updated course literature and assessment. Please make sure that you have familiarised yourself with the latest course description.

Additional information**Honor Code**

Academic honesty and trust are important to all of us as individuals, and represent values that are encouraged and promoted by the honor code system. This is a most significant university tradition. Students are responsible for familiarizing themselves with the ideals of the honor code system, to which the faculty are also deeply committed.

Any violation of the honor code will be dealt with in accordance with BI's procedures for cheating. These issues are a serious matter to everyone associated with the programs at BI and are at the heart of the honor code and academic integrity. If you have any questions about your responsibilities under the honor code, please ask.
