Learning process and workload

Examination

The students must hand in a project paper at the end of the course. An important part of the course will be that the students already from the start identify a HMS-project, which they can study during the course period. The paper can be written individually or in a group of maximum three students. Supervision will be given. The paper should not exceed 20 pages of text (figures and tables not included).

Examination code(s)

BIK 29421 Health, Safety and Environment, project paper. The exam accounts for 100% of the grade in the course BIK 2942 Health, Safety and Environment, 7,5 credits

Examination support materials

Re-sit examination

It is only possible to retake an examination when the course is next taught.
