Anbefalt litteratur

Artikler:

Every single teaching session will contain a series of relevant articles addressing the management accounting context and concepts from a broader managerial perspective. These articles are made available as PDFs on the It's Learning e-learning platform. The total reading load, excluding cases, will average around 300 pages for the full course. The course calendar will contain a specific list of readings, each of which will be updated and changed for every single time this course is run; this in order to make the course as contemporaneous and practically relevant as possible. All literature and other course organisation information will be made available online well in advance of the formal start of the course
